Introduction

On Friday i.e. 01 Feb 2021 EDC cell in collaboration with department of Training & Placement welcomed their guest Mr. Sanjay Jangid founder Open Innovation Lab for an Open Session on Startup Initiative, Open Innovations Lab is a recognized startup from Government of Rajasthan startup initiative, also incubated by CIIB (IIM) Ahmedabad, Startup Oasis. Mr. Sanjay Jangid founder MD of the startup has 8+ year experience and worked with SYNTEL as senior software developer.

He explained upon the thrust areas and government initiative for budding entrepreneurs. He explained on the principals on which Open Innovations Lab was founded and how at early stages it is important to explore and understand the real business problems in terms of corporate challenges and how students can go beyond a problem to solve and get a thought provoking idea which can create opportunity to transit from identifying problems into exploring solutions

Mr. Jangid also emphasized why mentoring and proper guidance is important for harnessing the collective perspectives and strengths of a cross skills team under proper. Then he explained upon what Open Innovation Lab, provides and its platform to develop innovation ecosystem in a disciplined approach.

Open Innovation Lab Approach
